

2030 SHOCK COMPATIBILITY

What size shock is compatible with the SCOR 2030?

The SCOR 2030 is designed for a 185 mm eye-to-eye trunnion mount shock with a shock stroke of 47.5 mm for 120 mm travel (standard) or 52.5 mm for 130 mm travel.

Can I run a coil shock on the SCOR 2030?

Absolutely. The SCOR 2030 is designed to be able to work equally well with either an air or coil shock, giving you the choice as to how you stay sprung.

Do I need additional hardware if I buy a SCOR 2030 frame and a compatible shock?

No, the mounting hardware is included when you buy a SCOR frameset without shock.

Shock specifications
